Don't Cut the Melon.

The Union Pacific will soon have a melon to cut, if melon cutting is decided upon. Seventy-five million dollars will be received from the eighty-eight millions Southern Pacific stock which was sold at 92. Why distribute the vast sum in dividends? Why not invest it in building new lines? Why not complete the short line through to Medicine Bow as contemplated, and of which the present North River branch is a part? The Union Pacific is one of the greatest railroads in the world, why not devote the eighty-eight millions to extensions and make it the greatest? This is the way people along the line of the Union Pacific feel; they take pride in the road and want to see the contiguous country further developed, knowing that in this development the Union Pacific will receive fair returns on its investment.

Good (?) News for the Farmer.

A dispatch from New York dated Saturday says: Butter from Siberia and Australia is here in bond waiting to make its debut into the American market along with Argentine beef, which is soon expected. A full thousand firkins of Siberian product—firkins weighing about 144 pounds each—are stored in warehouses waiting for the passage of the new tariff bill, which would reduce the present 6 cent tariff on butter to 2 1/2 cents. Delivered in the refrigerators the Siberian butter has cost 20 cents a pound, and adding the tax under the proposed tariff it would come to the dealer at 24 cents, said to be about 5 cents under the prevailing prices for butter of similar grade from domestic dairies. Some of the dealers declare that the Siberian product is as good as the best grades of domestic butter. A smaller quantity of Australian butter, and also a little from Canada, is also held here in bond awaiting the opening of the gate into the American market. The first commercial shipment of Argentine beef that ever reached New York was brought here today by the steamship Van Dyke from Buenos Ayres. It consisted of 1,000 quarters. On account of the high price of domestic beef, the importers expect to make a good profit on their venture.

The suggestion of W. H. McDonald that the Chamber of Commerce make a trip to McPherson and Arthur counties for the purpose of getting better acquainted with the people and the conditions of that section is a good one. North Platte's heaviest trade comes from the north and northwest, and this trade should be encouraged in every way possible. Such a trip would tend to acquaint North Platte merchants with what they may expect in the way of trade from the people of those counties; the trip would demonstrate what is needed in road building between North Platte and the country north and northwest, and it would certainly prove interesting to view the good crops which have been raised in those sections this season.

Diarrhoea Quickly Cured.

"I was taken with diarrhoea and Mr. Yorks, the merchant here, persuaded me to try a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. After taking one dose of it I was cured. It also cured others that I gave it to," writes M. E. Gebhart, Oriole, Pa. That is not at all unusual. An ordinary attack of diarrhoea can almost invariably be cured by one or two doses of this remedy. For sale by all dealers.
